

Cellular Gateway

The AWA Cellular Gateway receives tank level information from any AWA RF tank monitor and transmits the data to the AWA Data Center using digital cellular communications. The Cellular Gateway is an excellent choice for anyone who needs up-to-date level information at any time.

Features:

- Continuous, scheduled, or "on demand" level data
- Supports up to 40 Centeron RF monitors
- Cellular coverage throughout the U.S., Canada, Mexico, Central and South America
- Easy to install
- Two alarm levels for each tank
- Remotely set up and revise the report schedule and alarms from your RemoteTank WebView account
- Secure data transmissions
- Automatic power recovery
- No external antenna
- No maintenance

Specifications:

- Radio range: 1 mile line of sight, 500 feet obstructed
- Temperature range: -22°F to +140°F
- Input: +15 VDC to +28 VDC, 0.5A
- Type 4X outside enclosure.
- 11.0"L x 7.0"W x 5.0"H

The RemoteTank System

The AWA System combines robust tank monitoring equipment, market leading OptiFill™ tank fill optimization software, and Dispatch Compass™ routing and dispatching software to provide a complete set of tools to dramatically improve the productivity of any liquid distribution business.

Our wireless tank monitoring equipment is unmatched in breath of product, radio strength, and reliability. The system can communicate via cellular, satellite, Ethernet, or landline phone to ensure the best solution for any application.

OptiFill™ enables you to unlock the power of your wireless tank monitoring system. This delivery optimization software allows you to achieve maximum fills on every delivery, even difficult multi-tank locations.

Dispatch Compass™ is designed specifically for the liquid distribution business and easily schedules the most efficient routes for any combination of bulk, multi-compartment, packaged goods, or combo trucks.

With these powerful tools in place, any fleet will travel fewer miles in less time for less cost than ever before. And with higher levels of efficiency, you can service more customers and generate more profits without adding additional trucks or drivers.
